# GNOSTIC ANTHROPOLOGY 4

SAMAEI AUN WEOR

## INTRODUCTION

Within the collection of talks Samael, those related to the Gnostic Anthropology is seven and are the result of a singular work, as part of a sequence that made it possible to shape a unitary work in its thematic whole, integrated seven chapters, which is why they are presented in the same format. By uniting all topics covered will discover that in addition to being a unique work, they have not become obsolete, despite the time elapsed.

SECTION 1

1977

# FOURTH LECTURE

## CONTRADICTIONS OF ANTHROPOLOGY

Geological Ages, the era of giants, theories about the ancestors of man, the Dhyan-Chohan, the contradictions of the genealogies of Haeckel, The Omeyocan, Mulaprakriti and Iliaster, Yoalli- Ehecatl, the "four rounds" of manifestation the Descent of man, germs for man Real, different auto embodiments, the emergence of "primordial man".

We have been talking about Gnostic Anthropology, and today, as always, continue with the lessons of Gnostic Anthropology. Please therefore, to all our brothers visitors, put the maximum attention ...

First, it is good to know that anthropologists tell us of three important periods: first, the Paleozoic Period; the second, the Mesozoic Period; and the third the Cenozoic Period.

They say, emphatically, that existed during the Paleozoic Era over the waters of life, the first unicellular, microorganisms; They say it also existed mollusks, fish and reptiles first. This materialistic anthropologists say what an incredible security, as if they had been present in archaic times, as if he really could have see, smell, feel and even hear everything that happened in those ages. However, as I have said in past lectures, and now I repeat, always assert anthropologists materialism that "only believe what they see, they never accept anything they have not seen with their eyes or touched with their hands" . If I have to repeat many times, I must say that this statement is completely false, liar.

So, my dear brothers, they are believing in what they have never seen, what they have never touched; they are asserting in incredible shape false assumptions.

When they saw that Primary Era? When they were present in the Paleozoic Era? Or did they lived in the Mesozoic Era? They did existed in the Cenozoic Era? They are asserting simple assumptions not aware of, saying that they have never seen, and yet believe themselves eminently practical. They have never seen the Paleozoic Era. What do you know of that period of life forms that existed in that first archaic age of our world?

also they speak of the Mesozoic Era, that of the great antediluvian reptiles. We do not deny -in accurately or exactly, that has ever been in the reptile world. It is clear that the era of the reptiles existed, was a fact. Our Earth was populated by huge reptiles and this is undeniable. Recall the Brontosaurus or plesiosaur, the Pterodactyl, etc.

All these dinosaurs were really gigantic, enormous; monsters that had up to one and two blocks in size. There were, but what has them lords Materialistic anthropology have seen all the reptiles of the Mesozoic Era? How they reproduced as living? Were witnesses that?

That comes after the period known as the Cenozoic Era. It is said that "many reptiles evolved into mammals status". It is asserted emphatically that "came primate hominid" predecessors "intellectual animal" mistakenly called man.

"No doubt, they say that of primates hominids originated born man and additionally, that branch of the great gorillas, chimpanzees, etc". As he spoke, practically they fit well with Mr. Darwin. We know that Darwin does not say in any way that man descends from monkey, only clarifies that "man and ape have a common ancestor."

Materialism anthropologists say that "this common ancestor are primates, and in turn, the primates were born early hominids and great apes from ancient times", the period often called "Cenozoic". This is how they arrange their theories to somehow match the theories of Darwin.

But there was perhaps, or perhaps existed these primates? Do anthropologists of Materialism, ever saw the first hominids? Does it has, could perhaps swear that these hominids were born, first the giant ape and the other men? Or better correcting it said: Could they say, emphatically, that of primates hominids were born, who are the ancestors of man, according to them? Would they dare say that these primates were born also all species of gorillas and chimpanzees that inhabit huge and populated the face of the Earth in archaic times? What do they know that the Lords of Materialism?

Moreover, HAECKEL, as always, with their theories, assigned to the current humanoid about 17 or 18 genealogies; they seek to explain the origin of marsupials and mammals. And speaking Haeckel as surely as if he had seen. They are saying what they have not seen and believe they are believing in phantasmagoric utopianism of mind, they do not have any proof.

The mammals and marsupials such, and all those genealogies of Haeckel, are quite phantasmagoric. Of course, they do not rule out including anthropologists of Materialism to the famous lemurs with placenta. Where is the placenta of lemurs?

Well you that, at the present time is also clearly states know that "we come from the lemurs"; and there is no lack certain pseudo sapientes of our times, who are now claiming that "our predecessor is the mouse" so that, according to them, the mouse is also the ancestor of us.

As you can see, they are pure fantasies what these gentlemen say Anthropological Materialism, truly who have dedicated themselves to bray cheerfully ...

Is shameful that vaunted materialistic culture of the twentieth century. As soon we descended from an ancestor like another, and even have the luxury to say, with great confidence, that "we were little ones, little ones, because we were children of the mouse". These assertions are ridiculous Anthropological Materialism.

# Fanerozoico / Phanerozoic

## Cenozoico / Cenozoic

### Paleógeno / Paleogene

### Neógeno / Neogene

### Cuaternario / Quaternary

## Mesozoico / Mesozoic

### Triásico / Triassic

### Jurásico / Jurassic

### Cretácico / Cretaceous

## Paleozoico / Paleozoic

### Cámbrico / Cambrian

### Ordovícico / Ordovician

### Silúrico / Silurian

### Devónico / Devonian

### Carbonífero / Carboniferous

### Pérmico / Permian

## Precámbrico / Precambrian

### Arqueano / Archean

### Proterozoico / Proterozoic

We well know by ancient traditions, that the human race was composed of giants: giants of Atlantis, Lemuria giants, giants Hyperborean Epoch, Epoch Polar giants.

Of course, to make statements like that that "mouse also come", there must be excessive ignorance, and who well written, terribly abused the intelligence of readers. Who heard such nonsense, really they are victims of ignorance, because neither the mouse himself was so small in Atlantis as it is now. We know that the mouse in the Tertiary was a giant, he could be the size of a cow. So he said that "the human being was tiny and has grown" which was tiny son because he was descended mouse "is in frightfully ridiculous background.

You see how those cynics of Materialism move. As soon as they are saying "we come from primates", those already mentioned and of whom were born early hominids, as soon as they are saying something else: "That our predecessor is the mouse". When they get tired with the "brother" mouse, because then appeal to the mandrel, because the poor animal has red buttocks.

You see how ignorant are those anthropologists of Materialism! Those are the ones that are degenerating mankind, those who are taking humanity eternal principles, the eternal values of the spirit. Those are the ones that have precipitated humanity on the path of involution and degeneration. We know that when humanity is stripped of eternal values, spiritual values, degenerating frightfully.

Those are the ones who send their minions, the rascals of Materialism, to teach the people in the fields all these nonsense. Those are the ones who have become instructors of poor people living in villages, in small towns. Those are, indeed, those who are hastening the degeneration, because you are taking away humanity eternal values.

We could consider them as child molesters, because poor people corrupts simple fields with their gibberish, damaging the minds of the poor people. Those are the ones that are educational plans, within which excludes

everything that savors of spirituality. But they do not have serious grounds to speak out against the spiritual teachings of humanity.

Simultaneously assert that come from the mandrel as a mouse, or the first primates of the Cenozoic Era is quite ridiculous.

Both North and South, and in different parts of the world, these materialistic gentlemen laugh father of Manu, which became entire human race; and they laugh at the Dhyan Chohan, as seems a utopian figure. And yet, they have no difficulty in believing in the "SOZUROS" Mr. Haeckel, up to a kind of Neo stupid Pithecius, back with hablativa capacity, more utopian than the assertion that Manu that come or Dhyan-Chohan.

Mankind still believes in the Dhyan-Chohan, although these gentlemen of Materialism annoy them. Still accept the father of MANU million people; in Asia they believe in him, in man-spirit in Man Prototype, placed on a much higher level of Being.

If we retrospectives investigations very different from those of carbon-14 procedures, or the potassium-argon discover that, in truth, the prototypes of this humanity arise from the higher dimensions of nature and the cosmos. But to accept something, by the lords of Materialistic anthropology, it is more than impossible, because they feel so uncomfortable as the Chinese when they hear a concert of Western music.

So it's time to analyze judiciously what that materialistic culture that is serving as a basis for peoples, nations. We need to find the source of so much corruption and wickedness. It is not possible that we continue allowing humanity is a victim of ignorance, that is absurd one hundred percent: These genealogies of Mr HAECKEL and his henchmen are good as for Moliere and his caricatures.

To say that those lemurs, small animals very bright eyes, they had placenta and "they could count among our ancestors," is absurd, because we know that lemurs placenta had not ever. That is an unforgivable mistake zoo.

Haeckel really has done great harm to humanity, so once we said, "May their memory forget and never put your name on the streets," JOB parodying the Prophet.

In addition, at the time of Haeckel embryogenesis still not known. How Haeckel dares to speak of "lemurs with placenta"? Absurd one hundred percent.

When you analyze these things, you can not help but feel repulsed by the School of Materialism that is corrupting humanity, taking their values Eternals, precipitating the path of involution.

What it is actually really the ancestor of man Cenozoic Era? And what are their descendants? What the ancestors of the Palaeolithic man and what are their descendants? What the ancestors of the neolithic man and what are their descendants? Did he ever knew Mr. Darwin? He did met Mr. Haeckel or Huxley? What the Materialistic anthropology is based to speak with such authority about Homo Sapiens ?. What time belonged to the homo-sapiens, the primordial man?

Mr. Huxley in vain attempt to find among the groundwater of the Quaternary Period fossil remains of primordial man. Indeed it will not ever find it. And the man is older than they suppose pigs Materialism. The man of the Cenozoic Era existed, as the man of the Mesozoic and as the man of the Paleozoic Era. But this did not never accept, never Materialism. They want the man comes strictly from the Quaternary Period, by no means accept that existed during the Cenozoic Era.

So the time has come for the great reflections of the great analysis. What do they know about how life was processed during the Ages Primary, Secondary and Tertiary?

If you are granted humans of his Monad, to each, and you will see that all the little theater of Haeckel, Mr. Darwin, Huxley, Marx and his followers will fall, indeed, knackered, because Materialistic anthropology is a wall without foundations: just a slight push to make simple sediment.

In my last lecture I spoke here about the Navel of the Universe. That itself should study the famous materialistic anthropologists. That our Earth has a "navel", why not? If we when we are born, when we come into the world, we also have our navel, and "as is the macrocosm also the Microcosm; As above, so below. "

We talked then, in our last conference-on Omeyocan; something we said yes. What is Omeyocan? The Navel of the Universe, yes ...

One day the Earth-Moon existed, had seas, had mountains full of life, vegetation, also had its Eras Paleozoic, Mesozoic, Cenozoic. But the worlds, as all that is, has been and will be born, grow old and die.

The purely physical matter of the Moon died. Today is a corpse, as has been demonstrated by astronauts who have descended in the lunar soil. But life itself, the "substance" of Matter alive, not dead, continuous processed in a Fourth Coordinate, in a Fourth Vertical, along with seeds of all existence.

That "Substance-Matter" process later in a fifth coordinate, and then a sixth, a seventh subsequently. And when it fell in the Seventh, immersed within the bosom of the Abstract Absolute Space.

That substance Homogeneous, that Mulaprakriti of the eastern, or Primordial Primordial Earth that continues to exist. It was a seed that could not be lost, and was now deposited in deep space; in that seed life went dormant. That seed (I said and I repeat to-day), is the ILIASTER of the Sages.

He slept that seed Seven Eternities between Chaos, that is, between the Deep Space, to be clearer. But much later, the Whirlwind Electric, Electrical Hurricane, "darkness and wind," as the people of Anahuac says, that stirred primal, original world, the land called "Iliaster"; and that was when "the Two" worked with its positive-negative, male-female opposites. Thus, the Iliaster Chaos arose; therefore it is said that "in the Omeyocan, Hurricane, Tempests, Darkness prevail". It speaks clearly there "YOALLI EHECATL".

EHECATL is the Nahuatl God of Wind, Hurricanes, Electric Movement. The Macrocosmos dump in the Microcosmos, all in ceaseless activity. Thus, the Chaos, in truth, existed in the Omeyocan.

It was the same Omeyocan; Earth virginal, pure, ineffable, would never accept Materialistic anthropology. There were all possibilities until the universal fire that made fruitful Chaos. And when he did fruitful, she appeared the "LIMBUS". That extraordinary Limbus gave rise to all that is, has been and will be.

Since then, from the Navel of the Universe, there were successive splits across multiple dimensions and man merely germinal step by successive transformations, it was the Age of protoplasm. And the evolving and involuting life through various dimensions, he came to crystallize finally in the protoplasmic Earth.

There was a first manifestation in the world of the mind, in the region of the Cosmic Mind or Universal Intelligence; A second manifestation of all that is, has been and will be, in a second term. And then, as a result, there appeared a third demonstration in a subsequent dimension.

Thus, life unfolded, evolved and involuted in Three Dimensions extraordinary before it appeared in this physical world. Life existed first in the mineral state, but a class of minerals that today would not accept the materialistic anthropologists and geologists; much later he unfolded in a vegetative state and later in animal state. But those states (mineral, vegetable and animal) are currently unknown; They constitute something like the archetype of these kingdoms, mineral, vegetable and existing animal.

Obviously it had before life appeared on our World Protoplasmic, emerged from among existing animal species such a creature to mammals or apes, but actually really very different from the apes.

When the original or primitive man managed to crystallize as dense, he went through a transformation of their morphology, and thus appeared on the northern polar cap, which once was situated in the equatorial zone.

In my next talk I will discuss the movement of continents.

And then we will tell the world what really is the Pangea. Today only limit ourselves to say that life developed in other dimensions before crystallize in the physical world. Today I want to say also emphasize that, before it actually existed "intellectual animal" mistakenly called man, there was the Real Man in the First, Second and Third Race.

The "intellectual animal", that emerged in the Quaternary Period, that is not the man but the "intellectual animal", I repeat. On the last occasion I said that "real men lived splendidly in Lemuria, but that some, at the end of that time degenerated and mixed with beasts, and that mixture came to be present humanity, the" intellectual animal " .

So, the time has come to understand these sensitive issues. Man predates the Quaternary Period, as the Tertiary and Secondary and Primary Era. Proof of this is that, despite all living species disappeared archaic times, there continues that "intellectual animal" called man.

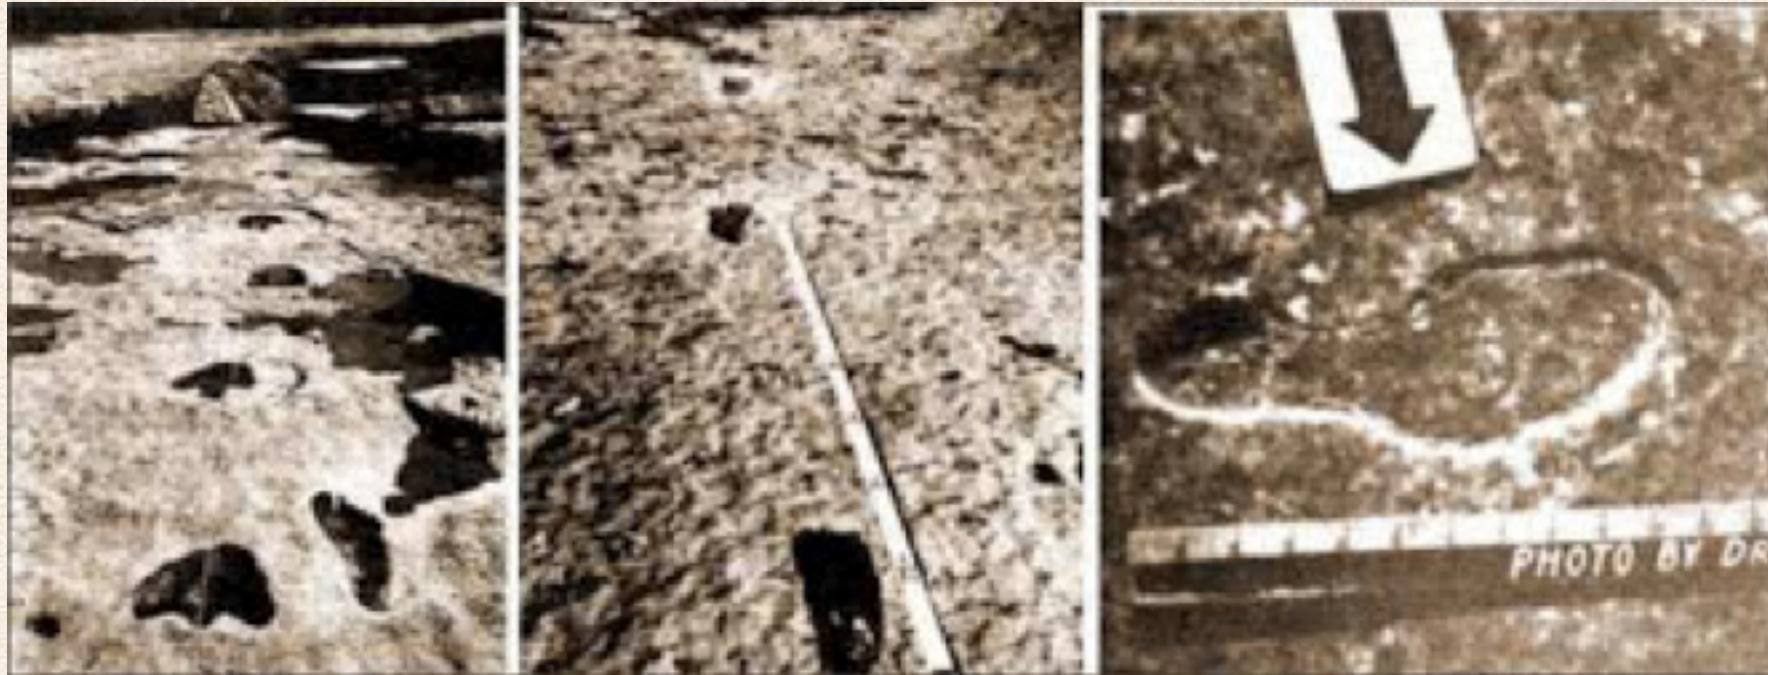

If he is able to survive despite so many storms, despite the revolution of the axis of the Earth, despite the events of the Pangaea; and if animals, reptiles and other kinds of animals of the Mesozoic Era, were not able to survive, this is showing us that man is above all these marked and indicated by the materialistic anthropologists periods.

I want you to reflect deeply on all these issues. If you are endows the poor "intellectual animal" corresponding Monad (which will try to remove), and all the "little theater" that Mr. Darwin, and Haeckel and Huxley, is reduced to dust.

when really unmask Materialistic anthropology has come. Now is the time to give back to humanity eternal values ...

So far my talk tonight .... If any brother has something to ask, before proceeding with our work tonight, you can do so with the most complete freedom.

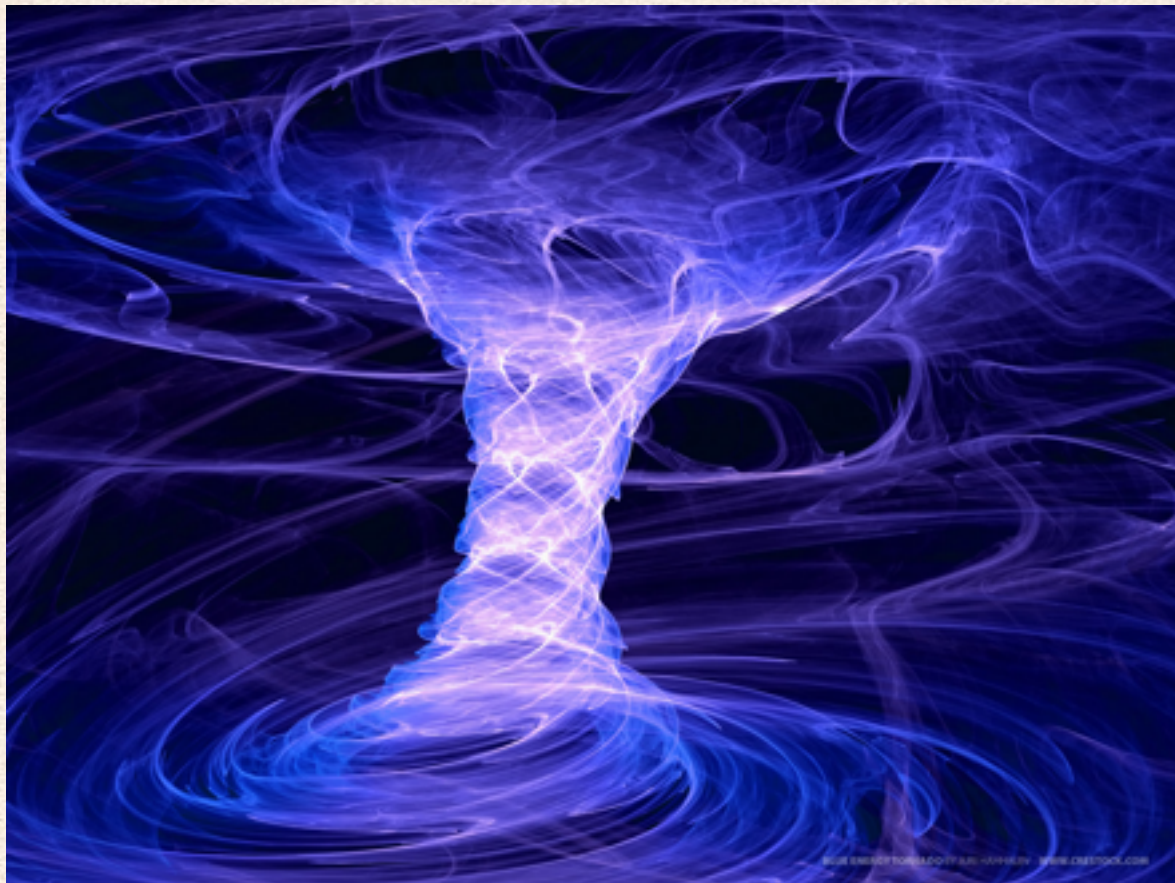

Dinosaur footprints and men of more than 100 million years old ...

## SECTION 2

# QUESTIONS

**QUESTION:** In the Whirlwind Electric, germs of life, and each brought their defined species?

**Samael Aun Weor:** Undoubtedly germs of all life, come the very navel of the universe, from the Omeyocan. This Earth has its "navel" and in the "navel of the Earth's lifetime.

Of course, anthropologists materialism are enemies of the Gnostic Anthropology and authentic traditions of Mexico; they will not accept, without any reason, the Omeyocan ...

Let's see, any other questions? Brother speaks ...

**Q:** Venerable Master, we would like to clarify the following: That the Lemurian race that degenerated, who joined with the beasts and there is born race. What we locate the Atlanteans site, which as you have taught us, were before us?

**Samael Aun Weor.** Well Atlantis was accepted even by Mr. Darwin, and well we know, with complete clarity, that Lemuria was also accepted by the. However, I have to say the following: the Lemurian race was splendid, tremendous, wonderful; today I have not stopped to speak clearly about the great happenings of Lemuria, because not reach us in time, but in future professorships speak clearly over the entire history of Lemuria.

At the end of the Lemurian Race, in their times of decline, it happened that some individuals degenerated and sexually mixed with beasts. From there they were some very strange apes.

I said in my last lecture that some other blue faces and red faces; who were either on feet and hands, which could levantantarse vertically, and they had the right and the power to speak.

New mixes allowed that kind of apes, in turn (ape-men), produce the current race, the race of intellectual humanoid. So the humanoid, that the materialists are emerging from the Quaternary Period, is not the real man, is merely the result of the mixture of human beasts with men. So our race, we all, are the result of the mixing of men who existed in Lemuria and mixed with certain beasts; hence we come from.

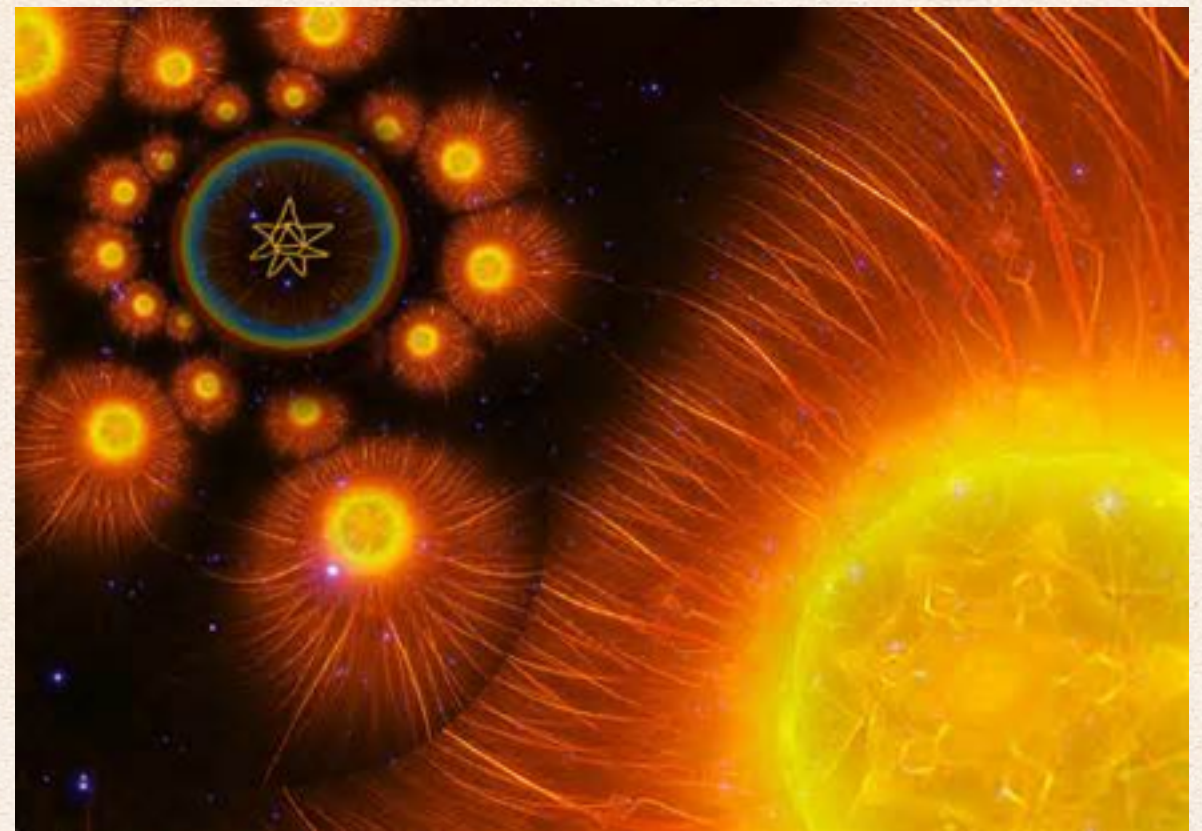

We are children of beasts and men, we are therefore "intellectual animals". However, as we have also Men, carry germs for Man. If we take advantage, these germs will develop in us and we will become men.

If anything we can become Men, despite being "intellectual animals", it is because we carry the germs of Man. We are children of mixed with men beasts, we do not deny, but carry the germs of Man, and if we become men took advantage. And that's the harsh reality of the facts; it is understood?

Are there any other questions?

**Q: Master, if the ape emerged from the mix of men and beasts degenerate humanity today also, then, means that in that sense one could speak of a common origin?**

**Samael Aun Weor:** Well, we could not fully ensure a common origin, because there are many beasts were many men mingled with beasts; many of these mixtures, eventually, and through successive cataclysms perished, however the result of other mixtures with beasts survived.

Thus, the Atlanteans were already people who survived, product mix of men and beasts; and turn this race that currently populates the face of the earth, is descended from Atlanteans.

So, if we say that the "intellectual animal" is now Man, we're lying. It is not man, is "intellectual animal". There are many people who do not accept, for example, A.Z.F. Arcano, who do

not want the Science of Transmutation. There are very serious problems: men who marry women who do not want Transmutation, and women who marry some men who do not want also not Transmutation.

In Lemuria, the Real Men were reproduced by Kriyasakti, ie, not spilling the Cup of Hermes; any mature spermatozoon was enough to make a matrix fruitful. But that was men who had not degenerated, real men.

But require for the poor "intellectual animals" to be played by Kriyashakti, ie by Transmutation is much to require. Then, if they simply have the right not to accept, as they are beasts and beasts have the right to reproduce like animals. So we want to say that the animals reproduce with the system of Men, with the gift of Kriyashakti, is much demand.

It is also true that we intend to create Men, and for that we are spreading these Gnostic teachings. Those who do accept, really, the reproduction system by Kriyashakti, ie by Transmutation of Sexual Libido, become men, because they adopt the sexual system of Men.

When you missionaries, you see someone who does not want to accept the reproduction system Kriyashakti not surprised, nor be surprised or hurt them because the animals have their reproductive system. And it's very funny that some of these beasts accept the system of Men; That's very rare, too strange ...

Are there any other questions?

To see your ...

**Q: Venerable Master, if in Mexican culture, Tezcatlipoca representing the Moon, Night, the Iliaster, is aimed, say, Ometecuhtli one Mexica allusion to Omeyocan, and the Principles of Fire Principles of Tlaloc and principles , say, relative to the matter ...**

**Samael Aun Weor:** Well, we know very well that TEZCATLIPOCA has its feminine aspect, Lunar, and that - (the feminine nature of the Moon) -is duly verified in the Eastern Wisdom. When speaking with complete clarity of the Mother swells, shining and finally gives birth to the "son": the Universe; extraordinary universe that means or is chaired by Quetzalcoatl.

That question is answered in my last lecture. Any other question. Let's see.

**Q: Master, the Atlanteans were already "intellectual animals"?**

**Samael Aun Weor:** It is obvious that the degenerates of Lemuria were mixed with the beasts, and there born an enormous amount of "intellectual animals" who continued to live in Atlantis; in turn, we come Atlantean us.

We are therefore children of beasts and men. We have the seed of men and so we can become men, but we are razonati-vas beasts.

We are talking here in a free form; and we have to keep talking frankly to unmask the traitors and disconcert materialists before the solemn verdict of the public consciousness.

To see talks and to see what you're talking ...

**QUESTION:** We have said that the men did the first part of the Lemurian Race and said not all mixed with beasts. So my question is: What do men not beasts were mixed with? Why were not they who continued to dwell on the face of planet Earth?

**Samael Aun Weor:** They simply had no desire to remain beasts also. They left ... as saying, "Go well!". That is all.

They left living here, on the face of the Earth, the "intellectual animals" and we are here, they left. Some, yes, sacrificed and were living here with people suffering and I live in this class of organisms, product mixtures Men and beasts.

Let's see....

**Q: Venerable Master, what plane it is to be Neanderthals and Cro-Magnon, in relation to the output of the Lemur Paradise Race? Do you have any relationship with them certain ...**

**Samael Aun Weor:** Well, the Cro-Magnon men and Neanderthals, and all that matter, we know that they are but descendants of Atlantis; as beasts like us, and that's all. Any other question?

**Q: Master, what time were the beasts?**

**Samael Aun Weor:** Well I have already said that beast is here, on this Earth, from the dawn of life. Please note that at the time, we could call us "Lunar", when Earth was Etheric, and there were all kinds of animals. That is clear.

And that we'll get through the didactic process. Now I'm answering these questions, but what I am answering will not be

included in the next edition written mimeographed, because we have to keep order. the conference will include only nothing.

But we must speak clearly to each of the previous rounds, but what we are doing building a didactic and dialectical method. Any other question?

**Q: Master, could we expand a bit on the germs that we took of Men, because when you say "germs", I immediately refer Sexual Germs only; and making a deeper reflection, I see that there is something more than "man" in us, which is the essence ... Perhaps if you could expand a little more, what the "germs of Man" who we are, if only sex or it is Essence ....?**

**Samael Aun Weor:** For the essence is the Essence. The "intellectual animals" are Elementals of Nature bottled between the ego. If any of you disintegrate the Ego, is pure Elemental; immersed within the bosom of the Great Reality; Elemental like any other, as the Elemental plants, such as mineral Elementals; They are elementary animals, those are not men!...

Neither the essence that you carry is of Man; Elementals are the Animal Kingdom. So far itself is correct. As germs for Man, germs are, for example, the Astral Body, are the germs

for Mental Body, are the seeds for the Causal Body. If one transmutes incessantly and disintegrates the ego, these germs develop, and finally born an Astral body in man, and finally crystallized a mental body in man, and finally crystallized a causal, and then the psychic principles are received and born Man, Man appears ...

a moment, ends the question ...

**QUESTION: If in fact our Essence is an elemental, an animal Elemental, experience that at any given time one takes here and that increases the Essence, because at some point, you might say, there is a moment of**

**consciousness through Experience and is the Elemental who receives it ....**

**Samael Aun Weor:** As the experience with the "intellectual animal" is any animal which has: the one with the horse, which has the eagle, the one with the donkey; they also have experiences. Or are we to discard the experiences of all animals?

**Q: Master, an animal can not raise awareness, bring to a fourth state, in the case of each other, it is assumed; for that we are working here. Regarding the transcendental mystical experience, what does an elemental animal with her?**

**Samael Aun Weor:** Well, I clarify one thing: we must distinguish between the intellectual animal who has never worked on himself and who is already working on himself .. So the question is badly done. It is clear that you are working on itself, obviously is becoming Man. It is a kind of transient state between animal and man. That's different.

But speaking as I am talking, I mean the majority, the millions of "intellectual animals" that populate the world. But those who are already working on themselves, are in a state of transition between animal and man; that's obvious. Are there any other questions?

Let's see, here is a sister who wants to ask, what questions you?

**QUESTION: self-realization, one can say that is synonymous with the "intellectual animal" to become Man?**

**Samael Aun Weor:** So is! And there are several self realizations: One, you can with a self-realization become Man, with the other can become a Christified, or an angel; are distinct Auto-Accomplishments there ...

See speech.

Q: Master, I do not know if the question to go to come to the case. In a magazine of those trashy, and not give credit to the magazine, I just think that there's a question, it is said "that Samael existed in Lemuria and it was a fallen Angel" and who taught at that time sexuality, that race of men who had. That was there when there was "the union of the gods with the daughters of men", that is, where I guess there was a decline, based on the fornicación¿cómo could we understand that?

**Samael Aun Weor:** At the time of Lemuria, not only the one who is here talking to you, "he went face down", but also fell almost all the "Lunar Pitris", "Agnishvattas", "Thrones", "Cherubim ... I .all the host of heaven went down .... when people began to enter into animal generation, then, I also "followed everyone"

See brother.

**Q: Venerable Master, kindly beg an explanation of the following: If Hurricane in the Navel of the World, in the Omeyocan issued the germ for Man while germs for the beasts, how can we reconcile the fact that our Essence, come here to evolve and go through the animal part to reach the humanoid?**

**Samael Aun Weor:** Well, we give the answer. Clearly that is a little misconceived, because parts of the principle that since men were upon the earth ...

**Q: Surely not, sir. Because if we talk about our Real Being, the man made in the image and likeness of God, purely spiritual, how can we reconcile our Essence have to go through the traffic before the lower realms?**

**Samael Aun Weor:** For simply "as above, so below", as it is here it is in the Omeyocan, and is in the "Half Day", ie, in the aeons that communicate to Earth this, physically, with the Omeyocan. You have to know a little reflection on this question ...

In the beginning was the mineral life that became active; Thus, during the first round, the mineral life acted intensively. But if one examines "the Eye of Dagma" stage of the Universe in the first round, he discovers a completely Mental World. Then the rocks were not very different from plant or animal; Kingdoms of Nature intermingled with each other. However, prevailed he prevailed Mental State Mineral Life....

It is necessary that the extraordinary Faculty of the Eye of Dangma is very well developed, so that the researcher is competent and can make a full differentiation between the Elementals themselves the Kingdom Mineral and existing rocks or minerals.

Normally, the researcher sees the Elemental Kingdom Mineral and confused with men, and that's a mistake. Only the researcher will have highly developed intuition Prajña- Paramita, will avoid any confusion and may make a distinction between themselves Elementals minerals and minerals.

During this first round we also exist to real men, dealing with all work related to the different departments of the Kingdom.

It is obvious that a second round later in the astral world arises; and in the second round of the Kingdom Mineral Elementals go one step further and become elementary vegetables. Plants that have nothing physical, intermingled with mineral and even the animal, because the Kingdoms of Nature were not yet at that time, defined.

Can very easily confused researcher and not be able to see the plant, but strictly at the Elementals the plant kingdom. But those Elementals Plant Kingdom were the same Elementals Mineral Kingdom; They are the same who acted in the first round, but now have risen to the State vegetable.

In the third round, ie, in the strictly ethereal era of our world, in the period we might call "LUNAR" those Vegetable Elementals have risen to the level of elementary animals; they have a more advanced step. Then to reach the state of animals continue their evolving and devolving processes because in each round there are evolutions and involutions.

In the third round there were evolutions and involutions; and the most advanced animals became a kind of very manlike creature. Had some resemblance, were, to any mammal, but it was not a mammal, it was something different: the "Primor-

dial Man" with the possibilities of man. That crystallizes, ie, takes physical form in the First Race of our world; and to take physical form, it is clear that undergoes a change in morphology. And so the first man, appears on the Sacred Island in the North polar cap, which then was not really, at the North Pole, but in the equatorial zone appears.

Later they continue and devolving all evolutionary processes, we will be developing through embryogenesis, etc., etc., etc.

Real Men of ancient Earth-Moon, lived in the First, the Second and the Third Round, next to the Elementals, and also took shape in the first three races that existed. So, in the first three races they emerged new and authentic Men Men, who lived happily in paradisiacal state.

As for, themselves, germs of all life, came from the Omeyocan, passed through successive transformations to crystallize in the physical form, in the actual forms that are in the Omeyocan and the three Superior Dimensions of Nature: the Etheric, Astral and Mental.

All this will have to go methodically developing it, didactic and dialectic. Today only I limit myself strictly to sketch it, be-

cause if we now dwell on this issue, frankly would not reach us or all night, not many years; this is very long talk.

**QUESTION: ... When we speak of evolution and involution is said that at the dawn of a Cosmic Day, that is, a Mahamvantara, were detached from the Absolute million Essences with the sole aim to evolve. But that initially, in the first manifestation of life, or**

**when they began to evolve from the ore, then as a vegetable, and later in animal, and finally human being, more however, when speaking of the seven races we with the protoplasmic, namely the First Polar Race, was a protoplasmic material type, right?.**

**I can not find the relationship that at first might have that process ...**

**Samael Aun Weor:** I told you that Man, the first attempt of man, was certain creature very similar to mammals, he suffered a morphological transformation when crystallized in this three-dimensional world of Euclid, in the Polar Epoch.

It is clear that this germ, that creature of the Lunar Era, which came to become the body of man or something like Man in the Polar Epoch, because had to go through evolutions through the Second and third Round. So there is nothing weird or strange.

Now, those creatures of those races the Polar Epoch, the Hyperborea and Lemuria, have ceased to exist, does not mean they have not existed; They existed!

Now, the current race is different, it is the result, as I said, the crossing of animals ...

- ❖ *EIKASIA: Lectures to the general public.*
- ❖ *PISTIS: Talks given to students Second Chamber.*
- ❖ *DIANOIA: Lectures imparted to students of third chamber.*
- ❖
- ❖ *NOUS: Congressional conferences, special recordings and informal talks.*

## NOTE:

In this part of the compilation of Samael Aun Weor's conferences we included those ones which were given to advanced students (DIANOIA).

Since the spread of the Gnostic knowledge is an altruistic and nonprofit work, the open reproduction of written content is allowed, provided it is done under the same conditions of altruism and non-profit benefits. If the complete work is used, you must cite the source.

The images that accompany these texts were obtained from many sources; therefore, if someone holds the copy rights of them and wants us to stop using them,

please let us know to take them out of this work.

The definitions contained in the "GLOSSARY" were taken from different unrestricted Internet pages and then summarized only for the purpose of using them as general reference.

The terms "death", "revolution", "elimination" and others are part of the context of personal psychological development alluding to Gnostic knowledge and have nothing to do with politics.

The translations were made by several people, so any doubt about the contents

and interpretations should be clarified at the original in Spanish, at this same internet page.

The themes of this collection will be published in several languages, so if you are interested in helping to translate these texts into the language of your choice, please contact us through this email: [gnosis.epdn@gmail.com](mailto:gnosis.epdn@gmail.com)

# KRIYA SHAKTI

Kriya-Shakti: The power of thought and will. The creative power or powers (siddhis) of Yogis.

The book "Stays of Dzyan", says. "The Third Race it became the vehicle of the Lords of Wisdom It created Sons of Will and Yoga, Kriya-Sakti by I think ..."

In the "Secret Doctrine" of H.P.Blavatski it is said: "It is that mysterious power of thought which, by virtue of its own inherent energy, enables it to produce external, perceptible phenomenal results." "The ancients held that any idea will manifest outwardly if attention (and will) one is deeply focused on her." "Similarly, an intense volition will be followed by the desired result. Through this power and the power of will it is like the yogi usually work its wonders. "

# ARCANO AZF

It is a term to refer to Gnostic Maithuna. The Maithuna is a Sanskrit term used to describe the Hindu tantra sexual union in a ritual context. Sahaja is a similar term used in Yoga. In both cases it refers to the transmutation of sexual energy through specific techniques done.

Although there are multiple interpretations of how to do this, different translations of the word maithuna clearly shows that refers to couples man and woman and their union in the physical-sexual sense, and is synonymous with kriya nishpatti (mature cleaning). As the spirit without matter is not effective by itself, both elements work together to achieve harmony; only when the Union is recognized when it is considered that maithuna reaches its fullness. The couple is then divine: it is he is Lord Shiva and Shakti.

Tantric literature usually makes numerous references to the need to control ejaculation to achieve maithuna or perform sacred sex.

The Maithuna is because the sexual union of man and woman, without loss of sexual energy for spiritual purposes.

# CENOZOIC

The Cenozoic or Tertiary was going from 65 million years ago to the present.

For the amount of information available is divided into two periods: the Tertiary and Quaternary. In turn, the Tertiary Period is divided into several epochs: Paleocene, Eocene, Oligocene, Miocene and Pliocene.

While the Quaternary Period is divided into the times of the Pleistocene and Holocene.

In the Geological nomenclature is essential to keep the names of ERA, (there are only four) of PERIODS (subdivisions of geological ages) and times (subdivisions of periods) as to be used interchangeably as is usual in Spanish in colloquial language, it leads to confusion between the two subdivision.

# DAGMA EYE

It is the seventh chakra, the crown or top of the head, which once opened confers spiritual vision. It is the "thousand-petalled lotus" ....

In this regard, "the Secret Doctrine" of H. P. Blavatsky reads: "In India it is called the "Eye of Shiva ", but beyond the Great Range is known in esoteric phraseology as" The Open Eye Dangma ". Dangma means a purified soul, someone who has become Shivanmukta, the Adept senior, or Mahatma. His "Open Eye" is the inner spiritual eye of the seer; It is the faculty which manifests through it, and is not clairvoyance in the commonly used sense, that is, the power to see from a distance. Instead, it is the faculty of spiritual intuition, which is obtainable by direct and definitive knowledge. "

Blavatsky, Secret Doctrine, vol. 1 p. 118

# EHECATL

Ehécatl (Nahuatl Ehécatl, 'the wind' ') in the Nahua mythology, was the god of the wind. It is known as one of the manifestations of Quetzalcoatl, the plumed serpent, taking the name of Ehecatl-Quetzalcoatl, appearing in the breath of living beings.

It is one of the main gods of creation, his breath initiates the movement of the sun, according to the myth of creation Nahuatl, after which originated the fifth sun, it was fixed on a point in the sky, like the moon, until Ehécatl breathed on them and set them in motion.

Brings life to what is inert.

According to the Gnostic esoteric tradition he attended Jesus at the time of the resurrection.

# EOCENE

The Eocene is the period of the Cenozoic era spanning from the end of the Paleocene (55 million years ago) to the early Oligocene (38 million years ago). Its name comes from the Greek words EOS (start, dawn) and kainos (new, modern), referring to the emergence of modern mammals that mark the beginning of this period. Its end is signaled by a major extinction event.

GEOLOGICAS ERAS

Geological Eras are a definition of the stages that have been identified based on geological and fossil record of the evolution of the planet and the life it has had over time.  
The current science defines only four geological eras:

the Archean (4500-590), also called Pre-Cambrian  
the Paleozoic Era (590-245)  
the Mesozoic Era (245 to 65)  
and Cenozoic Era (65-0)

Brief overview of the geological eras:

| ERA                                                                | PERIOD               | DURATION | CHARACTERISTICS                      | INTERVAL               | EVENTS                                            |
|--------------------------------------------------------------------|----------------------|----------|--------------------------------------|------------------------|---------------------------------------------------|
|                                                                    |                      |          |                                      |                        |                                                   |

# HAECKEL

Ernst Heinrich Philipp August Haeckel (1834-1919) was a German naturalist and philosopher who popularized Charles Darwin's work in Germany, creating new terms like "phylum" and "ecology".

Ernst Haeckel was a fervent evolutionist. His ideas about were collected in 1866 in his *Generelle Morphologie der Organismen* (general morphology of organisms), whose second volume devoted to Darwin, Goethe and Lamarck. However, although Haeckel was a big proponent of the idea of natural selection, in fact ignored the role of chance in the Darwinian theory. Its evolution accepted many of the ideas of Lamarck. Radically progressive, Haeckel argued that evolution was directed toward a progressive move increasingly complex living things and would have man as ultimate goal. Haeckel was also radically monistic and materialistic evolution and considered as one of the best evidence of this philosophy.

Haeckel was much more than Darwin, the great responsible for the integration of anatomy and embryology in evolutionary theory.

# JIVA

In Hinduism and Jainism, one Jiva is the immortal essence or soul of a living organism (human, animal, fish or vegetable, etc.), which survives physical death. It has a very similar to ATMA use, but as atma refers to "the cosmic being" Jiva is used to denote a "living entity" individual or living thing in particular.

## LEMURIDS WITH PLACENTA

Haeckel made many statements that were eventually disproved and even ridiculed by those who were his opponents. With the passage of time almost all contributions are only preserved as part of the history of human evolution, because in his time was very popular and enjoyed great prestige.

In the book "The Pedigree of Man," Haeckel includes what he calls the "Series of the ancestors of man." Specifically in the "Second division" (State eighteen) described in that imagined by him to Los prosimianos, bone, marsupials, but with placenta sequence.

Haeckel bases his descent of man in the states seventeen and eighteen, marsupials and prosimianos. When applying ultimately to the lemurs, making them therefore placenta animals, zoo makes a mistake; because after dividing himself mammals according to their anatomical differences in two groups: the indeciduata, which have no decidua, or membran special linking the placenta, and deciduata, those who possess it, includes prosimianos in the latter group.

However, revisions to their proposals, put beyond doubt that prosimianos Haeckel have no decidua or diffuse placenta. They are indeciduata and therefore unable they are the ancestors of monkeys, according to the same principles laid down by Haeckel.

These statements are part of one of the volumes of the book "The Secret Doctrine" of H.P.Blavatski, the number IV, called "Anthropogenesis".

Currently the sequence is defined as follows:

# MONAD

It refers to each of the indivisible substances of different nature, of will endowment, that make up the universe, according to the German philosopher Leibniz, who claimed: "monads are spiritual entities"

In Greek philosophy is a term that means "unity", used in different ways by ancient philosophers from the Pythagoreans Plato, Aristotle and Plotinus to signify a variety of entities, from a basic unit to God. Generally refers to the divine spirits in different categories.

In Gnosticism the Monad is the most basic aspect of God, ie the spirit immanent in every being. By extension in humans, refers to that from which originates the human soul, the "Father in secret," the God Within, the Innermost. So makes sure that every human being has their real self deep inside and that there are "many parents in heaven, like men on earth."

# MOUSE AS ANNCESTOR

For decades it has it has included these animals as ancestors of humanity today. In 2013 a team of scientists discovered a small animal the size of a squirrel, insectivore, which lived 65 million years ago and could be the ancestor of us all placental mammals.

This small animal could be the ancestor of mice, elephants, tigers, bears, whales, bats and humans. It was the size of a modern squirrel feeding on insects. It is estimated that this animal lived between 200,000 and 400,000 years after the event that caused the extinction of dinosaurs 65 million years ago.

# NEO PITHECUS

Pithecus name formerly used by zoologists to various groups of apes and monkeys, so pithecoïd NEO expression is to refer ape-like beings.

The use of that word Pithecus gave rise to the term Pithecanthropus, which also means anthropopithecus, however both terms differ in their conception since according to the first position of its etymological root can be:

Anthropopithecus: monkey traits of man.

Pitecantropo: man with apelike features.

In most currently used is anthropopithecus: Mammal hominid that lived in the Pleistocene, which some scientific theories considered the missing link between ape and man: anthropopithecus fossil bones were found on the island of Java.

OMEYOCAN

Ilhuícatl-Omeyocan (Nahuatl: "Heaven is where duality").

In the cosmogony NAHUATL it is the highest point composed of thirteen levels, the thirteenth celestial stratum. It is the sky where dwells the creative duality composed of OMETECHUTLI and Omecihuatl, (Lord and Lady of duality), the creative entity of all that exists. This cosmogenic concept is based on the universe as dual, so it is up is down, as there is light there is darkness, as there is life there is death, as is feminine is masculine.

Omeyocan is the residence of the creative couple behind the creation of the universe and of all the gods, where the generating principle of all existence is conceived, from which everything came and to where it all back. Among the Maya the thirteen heavens are called "Oxlahuntiku".

This creative duality that generates a third, was called by the NAHUAS the OME-TEOTL: "It is both He and She integrated into a single unit, that entity is the one who gives life, color, size and movement" is the Tloque iN Nahuaque: "the owner of what is close and what is far" (ie the origin of everything). It has also been conceived as Moyocoyani "Whoever invents himself" and also as "Ipalnemohuani" One for whom all live".

# SOZUROS

Haeckel produced a string composed of twenty links, covering the ancestors invertebrates and vertebrates progenitors of man.

Start at the Moneron, composed coreless mass of protoplasm, then as second link AMOEBA, which was, according to him, a mononuclear organism, and so on increasingly complex.

In that series the SOZUROS correspond to the link number 14 and were conceived by him as amphibian metamorphosis trailed the guts to reach adulthood, as with the frogs that live today.

The number 19 is the catarrhines MONKEYS, 20 the great apes like the orangutan and gorilla and his famous Pithecanthropus 21, a Man-Monkey who have not yet had the power to speak.

# TLOQUE NAHUAQUE

Tloque nahuaque (Nahuatl: 'which is close, beside and around of -all- things "Literally). Lord of the near and far "and by extension" Being in that fit all things, preserving and sustaining them. "

It was also called Moyocoyani Nahuatl: He who created himself; "Lord that is created or invents himself by his own thinking."

Tloquenahuaque is the main deity of the Nahuatl peoples. Origin of existence and non-existence, and computer creator of all things, creator of the first human couple and chief of the five ages of the world or five soles.

It was another of the many names that were known to Ometéotl (god of duality).

Tloque-Nahuaque represents the principal deity of the creation of the universe, symbolizes the principle of all existence and the philosophical notion of teotl word (God) among men, he is the great cosmic substance of eternal motion and infinite space called OLLINCAN, likewise it is represented as progenitor of all, the principle of intelligence, computer chaos, harmonizer of life and protector of nature.

any artistic representation or image of this god is not known, nor had temples and was unknown to the common people, so the researchers conclude that was the product of philosophical reflections of an elite group of Nahua priests who tended not to speak of the creator god as a sign of respect. Religious and historians of the time of the conquest as they were increasing their knowledge about the Nahua culture, they realized that the accusations of idolatry and ignorance did not apply to all people, insomuch conclude that it was a mistake to refer to the natives of Mexico as uneducated and ignorant in theological issues, and this is a clear example.

# YOALLI EHECATL

Yoalli Ehecatl (Nahuatl, Yoalli, dark, Ehecatl, wind) means Night Wind.

Yoalli Ehecatl is another name with which was known Tezcatlipoca (Smoking Mirror), god of the night sky and the night wind. The term "smoking mirror" was used to refer to obsidian mirrors that were used for divination.

However "Yoalli Ehecatl" is also one of the attributes of God-dual (Ometecuthli and Omecihuatl), which is another way of referring to that child being Tezcatlipoca with Quetzalcotal of the Lord and Lady of duality (Ometecuyhli and Omecihuatl ), its distinctive feature is "night wind": what you feel but not see.

He was also given the expressions "owner Lord of the near and along (tloquenahuaque), lord of life", "One for whom we live."
