THE AGNOSTOS THEOS

Escriba para introducir texto

The Absolute is the Being of all beings. He is what he is, what has always been and always will be.

The Absolute Abstract Space is unconditioned and eternal, beyond the gods and men.

The Absolute is uncreated light that casts no shadow anywhere during the profound night of the Great Pralaya.

The Absolute is beyond time, number, measure, weight, chance, shape, fire, light and darkness. However, He is Fire and the uncreated light

The Agnostos Theos

1977

The time has come to comprehend what the Being really is, what our studies are, what the Gnosis is.

First of all, we have to venerate the Agnostos Theos, the Absolute Abstract Space, unconditioned and eternal. Undoubtedly, the incognito and unknown divinity, is that something that does not have name: that "something," is the nameless, the ineffable.

The Absolute is far beyond of what has form and figure, side by side, quantity, quality, number, measure and weight: It is what is not, what does not have form, The Real.

When I use this class of terms you have to understand them from an intuitive point of view; when I say "Is what is not," it is necessary to apprehend its profound meaning.

One form of Being, would be the one that we have in our intellect, but that "something" is not what we have in our intellect; for that reason I say: "Is what is not," that Not-Being is the real Being; only in this form we could

understand, because that "something" is beyond any comprehension.

Sat, the not manifested, undoubtedly belongs to the negative aspect of the light. We are use to think in the light but in its positive aspect. However, the negative aspect of the great life is much beyond of what we can understand, much more far than the Cabbala's Sephiroths, much more far than the silence and the

sound, and the ears to perceive it; much more far than the thought, the verb and the action.

When I speak about the "Negative Existence," we must understand that something that is not, and however is. The not created light, is the negative aspect of the light, it is The Real; the "Negative Existence," taking it from the sense that it is not manifested, that it is occult in the veils of the manifestation.

The Ancient of days, for example, in each one of us, is like the Malkuth to the Absolute, that is to say, to the Absolute is like an inferior aspect. As Malkuth within the cosmic manifestation, in other words, in the physical world, is the most inferior aspect of all 10 sephiroths, in the same form the Ancient of Days, with all his greatness, majesty and grandeur, to the Absolute, is like the Malkuth.

From that incognito and unknown divinity that stays latent in everything that is, has been and will be, arises

every emanation: the ineffables, the army of the Voice, the Great Word, the Holy Gods, the Governors of all the universe. They are just manifestations of the incognito and unknown divinity: the Agnostos Theos.

Well my dear brothers, do not forget the Jehovah, the Iod-Heve. When I speak in this way, I do not want to make allusion to that anthropomorphic Jehovah of the Church of Rome and Jerusalem and of all the dogmatic people in general; no. The Jehovah that I am talking about, is the Intimate Jehovah of each one, it is obvious that each one of us has his own Iod-Heve. Iod is the masculine principle, Heve is the feminine principle: Iod is our Secret Father, Heve is our Divine Mother Kundalini; that is the intimate, particular Jehovah, of everybody.

Jesus of Nazareth rejected the anthropomorphic Jehovah of the Jewish, that Biblical Jehovah of the Talion's Law, the revengeful one; Jesus of Nazareth

loved his Father that is in secret and his Divine Mother Kundalini. We see the Divine Rabbi of Galilee exclaiming to the Father with great voice: "Father, into thy hands I commend my spirit!" His divine Mother Kundalini is stood near the cross; she is helping, she is Ram-Io. Ram is a mantra, the mantra of fire, the mantra of the Tattwas Tejas: Io remind us the mysteries of Isis, Io is the point inside of the circle, it is the Lingam-Yoni.

So my dear brothers, Jesus definitively rejected the dogmatic Jehovah, the one that based all his doctrine in the vengeance of the "eye by eye and teeth by teeth," and worshipped his Father that is in secret and his Divine Mother. The authentic Jehovah, it has to be searched intimately; each one of us, has far beyond the Consciousness, the Father that is in secret and the Divine mother (Iod-Heve).

We have cited the Absolute Abstract Space from which emanated the Army of the Voice, from which unfolded

our particular Jehovah, the divine Male-Female. So, let us see that behind our particular divinity, is the Abstract Divinity, the Being of our Being, the Unknown God, in front of who all the Army of the Voice prostrates: the Deity that does not have name, the "Negative Existence," that "Something" that Is not but however Is.

So, we have seen from where our Internal Being has unfolded; known that he emanated from the entrails of the Abstract Space, then we need orientation. First of all, it is indispensable to allow the Self-Realization of our Internal Father-Mother, within ourselves; that is possible if we understand ourselves, if we achieve the elimination of the inhuman elements that we carry inside.

Let us see: why in the depths of ourselves, is our Father-Mother, our primordial Elohim, that has emanated from the unknown God, from the unbounded light, from the unconditioned and eternal Abstract Space? He comes

with one intention, and it is to materialize, to get the Self-Realization, to crystallize in us.

Would it be possible? Yes!; but we need, I repeat, first, the elimination of the inhuman elements, so he can, express through us; second, we need to create the instruments or vehicles that are capable to receive him,

to cover, to protect him; vehicles that have to be strong, however also elastic and ductile, sublimes...

What kind of vehicles are those? Yesterday we were talking about the Existential Superior Bodies of the Being. Everybody think that already have those bodies (when I say everybody, I am talking about the pseudo esoterist and pseudo occultists); unfortunately are very few those that born with an Astral body.

If we examine the people carefully, we see that they only have a planetary body governed by 48 laws; something that we can verify in the 48 chromosomes that exists in the germinal cell. As is known, the masculine element brings 24 chromosomes to create that cell; the biologists do not ignore that the feminine element brings another 24 chromosomes; added we get 48, that is the necessary number that is needed to create the germinal cell.

So, our physical body is governed by 48 laws. It is a marvellous instrument; unfortunately the humanity only

has that instrument. The Vital base of that vehicle, is the theosophical Linga-sarira, the bio-thermic-electromagnetic condensation, in which is the very root of our

existence. Beyond these bodies, all what exists is the Ego, and that is what the humanity is.

The three-brained biped, the intellectual animal, only has the planetary body, with its vital base, and inside, very inside, carries the Ego, the "I,"

the myself. That "I," that Ego, is formed by different inhuman elements. Unfortunately the Essence is trapped, enclosed in those elements and it is obvious that it process herself according with its own condition.

So, we are in a disastrous state, however, we have to cover with our presence the Divine Male-Female, the one that emanated from the Absolute Abstract Space.

Then, what to do? How to act? How to work in order to one day our Sacred Elohim could be covered with our presence? What can we do? First of all, we have to begin by eliminating from our nature, the inhuman elements. Those elements, I repeat in order to be well understood, are personified by the diverse figures that form the "I," the myself: anger, greed, lust, envy, pride, laziness, gluttony, etc., the defects are so many, that even if we would have one thousand mouths to speak, we would not enumerate all of them correctly.

It is necessary, urgent, to eliminate all those defects. Each one of them is an inhuman element and inside of them is trapped, bottled up the Essence, the most worthy and decent that we have.

First, it is urgent to comprehend that it is indispensable to get Consciousness of our own errors. In relation with the people, in the fight for the bread of everyday, in relation with our friends, the defects that are hidden appear, and if we are watchful, as the watchman in wartime, then we discover them. Discovered defect, has to be comprehended wholly, in all the mind's departments.

Each defect has many faces and roots. Once we have comprehended our error through the meditation's technique, then we will eliminate them. We could comprehend, for example, the defect of anger and however to remain with it; we could comprehend the defect of the envy and however to carry it inside. I repeat, it is necessary to eliminate it, and that only is possible using the Sexual Electric force.

So, during the Sahara Maithuna we can invoke Devi Kundalini, the Igneous serpent of our magical powers,

and to supplicate to her, to eradicate from us the discovered defect. She will do it, using the Minerva's lance. Let us remember that marvellous symbol, in which appears Jesus, the Great Kabir, inside of the Jerusalem's temple expelling the merchants with his whip.

In the same form we have to proceed: to expel with the Will's whip the merchants of the temple (the anger, the greed, the pride, etc., etc., etc.). Devi Kundalini will do it; she will take the Lance of Minerva and with that fohatic force will eliminate the inhuman elements that we carry inside.

In that form my dear brothers, the Consciousness will be liberated, emancipated and according with its process of liberation, it will be awakening, and when all the inhuman elements have been destroyed, then she will shine scorchingly, then we will be able to see and to touch the great realities of the internal worlds.

I repeat: we need to expel the merchants from the temple, and that is only possible with Thelema

(Willpower).

So, the work of preparation is extraordinary, because we really need to work a lot in order to one day to cover with our presence the divine Male-Female, the inner Elohim, that emanated from the not created light, from the Absolute Abstract Space.

Speaking more profoundly (about the preparation of the temple) we will say that it is necessary to create the Astral body. To eliminate the Ego is one part; to create the Existential Superior Bodies of the being is another part and to sacrifice ourselves for humanity is our duty. With those Three Factors for the Revolution of Consciousness, we will achieve the Inner Self-Realization of the Being; with those Three Factors for the Revolution of consciousness, we will prepare ourselves to crystallize inside of us the Intimate Elohim, the Father-Mother, the particular Jehovah, the Iod-Heve.

The creation of the Existential Superior Bodies of the Being, is a very patient work; we need to transmute the sacred sperm in energy. In other times, when humanity did not have developed the abominable Kundartiguador Organ, nobody extracted from his body the sacred sperm; but in the intellectual animal was created the abominable Kundartiguador organ, then he enjoyed when eliminating the sacred sperm. If we transmute that venerable matter, we will be able to create the Existential Superior Bodies of the Being, but first of all it is necessary to comprehend the different alchemic processes.

It has been said that in order to do the Great Work, just one substance is enough. What is that substance? We will answer: the Mercury of the Secret Philosophy. Where that Mercury is? Well, it is the Metallic Soul of the Sperm. It is clear that when the seminal

liquor is not spilled, this is transmuted in energy and that energy is the Mercury of the Secret Philosophy, that is to say, the Metallic Soul of the Sperm is the Mercury of the Secret Philosophy and that Metallic Soul is represented by Lucifer; but when we cite this personage, we do not have to be scandalized.

That is Lucifer; but do not think in an Anthropomorphous Archangel, Lucifer is very individual, each one of us has his particular, individual Lucifer. Lucifer is one of the aspects of our Internal Being and in truth is the most important one. Is, I would say, the duplicate of the Third logos in ourselves, the shadow of Shiva, the Arch hierophant and Arch magician.

Did he used to shine? It is truth: scorchingly. As an Ineffable Archangel, he was a Saint Kumara, but when we made the mistake to fall in the animal generation, in the root of our actions, because he is one of the most

important aspects of our Being, because he is the duplicate of our Inner God, he fell in the darkness of this world and was transformed in the devil.

There are as many devils as human being are on the earth; each one of us has his own devil and this particular devil, is black as the coal, crystallized by the Kundartiguador organ, in the Negative Fohat, in the Fire of Fatality, the Luciferic fire.

Lucifer is in awkwardness, but he was the most excellent creature, not inside of the Being, but in ourselves. We have to whiten and that is written. The medieval alchemists said: "Burn your books and whiten the brass..." It is known that brass is made with cooper and the cooper is related with Venus, the morning star...

To whiten the brass means to whiten the own internal devil to achieve the liberation. He is the enslaved Prometheus: a vulture devour his entrails untiringly (the vulture of desire). Our Lucifer has power over the

heavens, over the earth and over the infernos, but we have him in misfortune; if we whiten him, we will be rewarded. How could we to whiten him? Eliminating the Ego, creating the Existential Superior Bodies of the Being and sacrificing ourselves for humanity.

Among the Aztecs, Lucifer appears falling with his head downward into the abyss as a symbol of our sexual fall. But there is something new in the Aztec's doctrine: Lucifer girding the cord girdle of a penitent, of an anchorite. Lucifer, making penitence? Have you ever seen something more extraordinary?

That Lucifer is the representation of our Philosophical Stone, and besides he has that paradigm in us; but is so intimately related with the Mercury of the secret Philosophy, that it looks as if we had passed through a disgregation, but we have not passed through any disgregation; it is necessary to put a lot of attention... I already said that the Metallic soul of the Sperm is the

Page 9 of Codex Borgia: as penitent Xolotl

Philosophers' Stone, I also said that Lucifer is the Philosophers' Stone. So, divine: What of the two is the Philosophers' Stone? In truth, Lucifer and the Metallic Soul of the Sperm are the Philosophers' Stone; that stone is occult by Lucifer.

Well, in the Cathedral of Notre Dame of Paris, appear a bird, one raven observing the "small stone of the corner."

What does appear in that "small stone of the corner"? A figure, a devil. What does "the raven of the putrefaction" means? The death! We need the elimination, to kill, to destroy the animal Ego; only in that form it is possible to whiten the devil that is in the corner of the temple and that wants his liberation, because he wants to become again the Luminous Archangel of other times.

That Metallic Soul of the Sperm, I repeat, is extraordinary; has emanated from the Chaos and in truth, is in the seminal waters. At the same time, from that Metallic Soul, through the transmutation, a third water is separated: it is the creative product that ascends through the canals of Ida and Pingala to the brain. When the fire, the Sulphur fecundates that Mercury, then begins the marvellous process of the Initiation; but let us take in account the three aspects of the Mercury:

First: As a Metallic Chaos: Simple sperm. Second: As Metallic Soul or Mercury.

Third: The third water, the marvellous fluid that ascends through the canal of Ida and pingala to the brain.

The moment comes or will come in which the third aspect, those sexual fluids, ascending through Ida and Pingala, will be fecundated by the Sacred Fire (there we have the connection of the Mercury and the Sulphur in their first aspect). All the esoteric process in us is based in the incessant cross of the Mercury and the Sulphur.

The Sexual Hydrogen SI-12, of what the best occultist talk, among them Gurdjieff, is the Mercury, the third

aspect, the third mercurial water. That Mercury, when crystallizes in its first vehicle, the Astral body, becomes extraordinarily marvellous; but in order to this Mercury could take the form of an Astral body, it is necessary to work it.

Through the transmutation will come the moment in which that Mercury will take that form, and once having the Astral body, we will be able to travel with it through the infinite space. Much more later, the Mercury crystallizes in the form of a Mental body and very much later, in the form of a Causal body (observe the three forms of the mercury's crystallization).

When those Existential Bodies are created, formed, we incarnate the Human Soul: but it is not enough to create with the mercury, the Existential Superior Bodies of the Being; we have to know that the Mercury has to carry the Gold of the Cosmic Christ inside of ourselves. Saint Christopher, with the child in his arms, is an allegory of

the truth that we are explaining. Each one of us has, first of all, to prepare his mercury; once is prepared, do not forget that within ourselves, the Golden Child of the Sexual Alchemy has to be developed.

So, the Sexual hydrogen SI-12 that Gurdjieff talks, it is just the Mercury. When it is said that the Mercury is developed inside of the being's Mercury, what kind of gold is created? The Christic Gold, because Christ is the Gold; inside of those bodies and the Mercury, has to be formed the Gold, the Gold of the Christ. The Logos has to crystallize in us and that is a hard and arduous work.

It is not enough to create the Existential Superior Bodies of the Being, it is necessary to go further: they have to be perfected so they can be covered, later, with the different parts of the Being.

I repeat, in order to all the present and those that are listening could understand: the Mercury is the

fundamental matter of the Great Work and it has as I said, three aspects:

First, the Chaos, the semi liquid, semi solid secretion, of the sexual glands, that exists not only in the males but also in the woman, because if it is truth that the man during the orgasm spills his sperm, the woman also has her sperm and when has an orgasm, it lost it in miserable form.

That the doctors do not want to call sperm, the feminine sexual secretion? That is different; but we the alchemist, call it sperm, because it is sperm, and I am talking in terms of rigorous alchemy, not in clinical, medical terms, and that has to be clarified in this conference.

Does it has three aspects? It is truth, and I am repeating it, to make it been understood: the first, I said it, is the sperm; the second aspect is the result of the transmutation; is, we would say, the tetra-dimensional part of the sperm, the subtle, etheric part; the Soul of

that sperm, the Metallic soul. That is the Mercury in its second aspect; but the third aspect comes from the

second one: it is the energy already ascending through the channel of Ida and Pingala to the brain.

The alchemists say that the mercury has to be fecundate by the Sulphur and it is important to you to understand it. It is clear that when the solar and lunar atoms make contact in the triveni, near the coccyx, by induction awakes a third force: the Sulphur, the Fire that ascends victoriously through the canal of Sushumna, through the medullar channel of the dorsal spine to the brain, and that in its ascension awakes the Chakras or wonderful centers of the vital body then says that mercury has been fertilized by sulfur.

It is clear that Mercury fertilized by Sulfur is of new issues; gives rise to a transcendental order first creation, I mean the astral body, which is nothing more than Mercury fertilized by Sulfur result: the astral body is formed, and they know it all!

Gurdjieff do not explained it well, but I'll explain: With the creation of the astral body we can move with it consciously and positively through infinite space.

You know you have an Astral Body when you can use it; as one who has known his feet because he can walk, or his hands because he can use them; well, you know that you has an Astral body when you can travel with him.

Having made the astral body, we haven't finished, we will have gained immortality, yes, in the world of 24 laws, ie, in the Astral world. For a person who has not acquired, which has not made the astral body is not

immortal; when this person die his physical body becomes dust, and what continous in the Astral World are the various "elements" form the I, the myself, the self, subhuman elements, inhuman, subhuman and bestial. That those "elements" come back later..., it's true! People, unfortunately, does not know how is born or dies as Creating your astral body, I repeat, you must create an individual mind, a mental vehicle.

How are you going to create it ...? With the same Mercury is how is going to be created the mental, ie mercury in an octave higher than the astral.

Once the mental is created, with the same mercury in third octave the body of Conscious Will be created.

So, you see, how mercury comes to form the Superior Existential Bodies of the Being.

Within that mercury comes to appear the gold, not merely material gold, but the Christ gold, spiritual, but to make me more understandable say that we must make gold later, that is, bring the mercury to make gold. The astral body must become gold, and then the mind and then the causal:

that's what it is meant to say when is said "mercury within the gold should be formed" clear; once these bodies have been pure gold, they may be "devoured by the serpent."

This is what we want to clarify, when we say that bodies have to perfect them, and then you have to cover them with the different parts of the Being.

Sure, the first body that will devour the igneous serpent of our magical powers is the Astral, the second body that must devour the sacred serpent is the mental and the third body that the sacred serpent must devour is the causal.

Later, the igneous serpent of our magical powers must swallow the spiritual soul and intimate.

When the snake has swallowed the bodies that we have created and it will be nothing more than her.

However, the "consummation is" really entails, transcendental unsuspected features the Serpent. It is written, "the snake devours the eagle"; remember that the Mexican National Flag Eagle Snake swallowing always appears.

When the Eagle devours Snake wing, master of the situation is the Eagle; In other words, the Feathered Serpent, Quetzalcoatl, the resurrected Master, Perfect

Master, the Kumara is formed.

Before that moment, our Lucifer will have been emancipated, and mixing it with the Soul, the Spirit,

entering these bodies of

pure gold, will make the Soul and Spirit of Man something different: an Angel Ineffable; and then, within that ineffable has the God within you penetrate within the Ineffable Angel, and likewise this Angel, the Ineffable, must penetrate into the internal God, and we shall be performed Auto and perfect.

Lucifer load powers, "measured", and bleached and give us the elixir of life, the perfect medicine and power over all that is, what was and what will be.

The Divine Mother Kundalini need devour the superior existential horns of Being, but for her to do that, all the

horns must have been transformed into pure gold, because "She does not swallow anything unclean."

So, my dear brothers, we must remain within the serpent and the serpent within us. This is how the eagle comes to be within us, and we in the Eagle. In a word; that's how the Father-Mother, the God Immortal, he will rise from his grave glass to come and see the world through the eyes of our face, and parlar our creative larynx; this is how each of us is called to become a Kumara, the Primordial Elohim, in a Grand Master. But I have to say that the foundation of all this Great Work is the Mercury.

So that the work is done must be given opportunities to nature; Nature helps nature.

I am going to tell you a story, a very interesting story, where it is said that SAN CRISTOBAL said: "I will serve the most powerful man on Earth ..." I knew of a King, and there was to give.

- Lord, I was told you were the strongest man in the whole Earth. I'm here to serve you ...

The King appointed him, as his slave; He did slave. But one day he saw the King trembled at something, and he importuned. Then tells the slave:

Lord, why are you afraid? King answered: - Because I have fear of the devil. - Then the Devil is more powerful than you! From there he walked away, and going down a road saw a group of riders on their horses. There was one that was leading, chief, is was the Devil. San Cristobal said: - Are You the Devil? Rider answered: - Yes, I am. - I was told that you were the most powerful and I want to serve you. - Follow me! the devil said.

And he entered the service of the devil. But it happened much later he saw the Devil shaking before a cross. Sure, the man asked the Devil.

Dintel 15 de Yaxilan, Chiapas, México

- And why do you tremble? Why are you afraid? He said: - Because I'm afraid of the Christ. - Ah! Then Christ is stronger than you. - Yes, it is stronger.

- Well, I'm going to serve Christ!

He walked those paths met a monk.

- Where are you going? The monk said. I replied San Cristobal: - go in search of Christ, because I have been told that he is more powerful! The monk said: - Look, if you want to serve Christ, you see that river? He said: - Yes. -So cross the people to the other side, help the poor people! There are no boats, nothing and with your strength you can help to pass people.

- And San Cristobal went to the river and walked for a while people passing from one to the other side. But one day came a child. St. Christopher lifted the child, tried to pass to the other side, but the child weighed terribly; San Cristobal so impatient said:

- But boy, do not get so heavy. Then the boy replied:

- I'm heavier than the world. Did not you say you wanted to serve Christ? I am Jesus Christ!

Sure, San Cristobal was perplexed. He went across to the child, put him on a stone, and the monk with a lamp, took the child in his hands

Saint Christopher carrying the child is a symbol of Mercury, within which should form the Pure Gold, Gold of Christ. Sheep carrying his fleece, is another symbol of the same.

San Cristobal is precisely mercury. That image of the Angel of "Apocalypse" with one foot on land and one on the water, and a book in his hands raising his right hand to heaven and swear, and surrounded by a rainbow, is

nothing but the same Mercury , carrying the book is the book of wisdom, he has seven seals. He that is able to break the seven seals of the book of "Revelation" will become a God, terribly divine.

The rainbow around the angel who swears by Heaven and Earth, are the colors of the Great Work.

Mercury at first is black, representing the death of the inhuman elements; It is white when we have the right to use white linen tunic; is yellow when we already have the right to get that robe to minister in the Temple, and finally turns red when purple of Kings is already delivery to us; that purple is only delivery after the sacred serpent has swallowed the vehicles have to swallow.

The same process of rainbow colors that appear on the Angel, is repeated in each body, in the Astral, the Mental, in the Causal, etc., etc., etc. But again, I emphasize again, what matters is the Mercury. There is

another example, there appears an ancient painting where you see in the ocean, wonderful fairy is among

the waves and her two breasts flowing with milk falling on the water; and it is crowned ...

I behold the three aspects of Mercury. First, the chaotic water, the sperm simply; Second: the milk of the Virgin, that is, the metallic soul of the

Mercury, and third, the crown on his chest, right there suggests that it is the third aspect of Mercury, which already rises channels Ida and Pingala to be fertilized by the fire; the same who later takes the form of the existential superior bodies of the Being.

Here is another picture of the Middle Ages: a great source appears; a Virgin squeezes her breasts; Christ also bleeds his side, falling on the same source; the source is full, overflows, and the product is

dropped on another source. So many souls out of purgatory and receive for purification. I behold the three aspects of Mercury. There are three aspects.

Mercury has three aspects, but I want to be thoughtful and understanding that go ... so that the work is done must be given opportunities to Nature, Nature helps Nature; If the work day is done, it would not be correct.

We will create gold, we create the existential superior bodies of Being. How to do it?

Imitate Nature. If we take the eggs from chicken to sunlight are lost, they do not leave the chicks, and if one

goes, lasts a short time, dies. Those eggs must be in darkness to be fertilized.

Reproduction is always in darkness, due to the arrangement of the creative organs; the creature is formed between the darkness of the womb, the womb. Everything is brewing in the darkness; the sun is the number one enemy of any seed. So, working with mercury must be done at night, not during the day; I repeat, at night. The bodies should take shape gradually, they are the same crystallization of Mercury. But they are called, again, to perfect; They are right when they become pure gold and pure gold become inhuman when all elements have been annihilated, destroyed, reduced to ashes. Understand what I'm here to explain tonight: Bringing the Sacred Elohim, how to cover it with our presence ...

He who exudes a day unconditional and eternal space, should come into the world, embodied each of us. Each

of us must become an Elohim of the Great Work, and the Great Work consists precisely in self-realization, work with the Mercury of the Secret Philosophy.

Have you understood this, my dear brothers? We tear all the veils of Alchemy; This knowledge is delivered, but veiled. Now we need to tear all the veils so that humanity knows it.

I'm speaking to you on the basis of experience, because I have my mind on Isis, otherwise could not explain.

I'm not speaking with insubstantial vain wordiness of ambiguous chattering. Nor am I verbalizing memory, or tossing new hypotheses, I'm simply saying, revealing what I have lived; I repeat, I have my mind in Isis, so I can give you these explanations.

Work with Mercury, that's the important thing! So make it, all coated with our presence the Great Father-Mother who emanated one day Absolute Abstract Space.

So far my talk tonight. If there is anyone who has .
something to ask, you can do ...

Samael: Well, your concept, dear brother, is that of all the people ... everyone understood in that sense, but of course, is false because there orgasm in men and women ...

AGNOSTOSTHEOS

Literally "unknown god" is a conception of divinity that is recurrent in many cultures and that share certain characteristics as not having human figure, have no limit, name, form, etc.

Evidently ancient cultures managed different degree of abstraction in their efforts to meet God in its purest form: Among the Mayas he was called HUNAP-KU, which means "the giver of the measurement and movement" among the Egyptians is the "secret name RA" in Islam is called as ISM AL-'AZAM meaning "huge name" mentioned in some traditions that define the existence of 99 names of God, which is the number 100. Nahua is called IPALNEMOHUANI, "one for whom we live" among the ancient Chinese is SHANG DI name literally means 'Ruler of Heaven', Etc.

Until the Ain Soph of the Hebrews in which provides a view from grade to grade of God's nature, its origin and forms of manifestation.

DEVI KUNDALINI

Also expressed as "Devi Kundalini Shakti" or Divine Mother Kundalini.

In the context of Hinduism, the Sanskrit word Shakti means energy or active power of a DEVA (male god), personified as his wife.

Originally, all female deity of Hinduism has been called DEVI and has been associated with fertility, then every Devi and power has been understood as shakti. In the context of Hinduism, kundalini is an unseen energy represented by a serpent sleeping coiled in the Muladhara (first chakra, which is located in the area of the coccyx).

For a long time related to the Kundalini, as power was a reserved or secret knowledge, but all traditions and religions refer to it with some symbolism. But the birthplace of the concept of Kundalini in Hinduism is the personified as a female goddess or Shakti immaculate, energetic power of our Spirit. She is depicted as a serpent sleeping coiled three and a half times, which gives it its Sanskrit name.

Yogis say: "His own Kundalini is nothing but his own SPIRITUAL MOTHER. You're her only child. She can not hurt or harm but devote little by little, to cure your own physical body and repair your chakras "When the Initiate invokes the Divine Mother Kundalini, to help, she appears as a Virgin Purisima, as a Mother of all worship. In it are represented all our Mothers of all our incarnations.

Mother Kundalini is the serpent of fire that rises through the medullar canal. The Mayans and Toltecs produced a whole cosmogony around her.

Among the Egyptians the Virgin is Isis. Among the KALI Hindustani in its positive aspect. Among the Aztecs is TONANTZIN. She is REA, CIBELES, MARIA, Adonia.

Diana among the Greeks and the Virgin Mary in Christianity have also been ways to represent it.

In all cultures and in all ancient religions there is always a Spiritual Mother.

GNOSIS

Gnosticism includes several philosophical and religious currents that formed a syncretic blend with Christianity in the first three centuries of our era, nevertheless it was eventually declared heretical by the Catholic Church, although it had caused a great influence until then. Scholars mention a pagan Gnosticism and Christian Gnosticism, although the most significant Gnostic thought was reached as a heterodox branch of early Christianity.

The term comes from the Greek Γνωσις (gnosis), 'knowledge'.

Despite of the great diversity of currents or Gnostic ideas, it is possible to identify some common elements especially its secret or initiatic character.

Also its dual meaning by which it is stated a difference between the spirit and the matter. Evil and perversion are associated to the matter whereas divinity and salvation belong to the spirit. Human beings can only access salvation through a little spark of divinity which is the spirit that dwells within us. It is where earthly life is necessary to attain it.

This empirical experimentation of the divinity is gnosis, an inner experience of the spirit in the flesh. All this is part of something which was known as “The Gnostic Myth”.

The Gnostic Myth is composed by:

- 1 - The existence of a supreme divine being
- 2 - Lighting and fall pleromatic
- 3 - The Demiurge architect as creator
- 4 - The becoming of the Pneuma in the world
- 5 - The dualism of existence
- 6.-The role of savior Christ
- 7 - The cyclical return of souls to matter through reincarnation.

The modern Gnosticism was founded by Samael Aun Weor.

GURDJIEFF

George Ivanovich Gurdjieff (1872 - 1949), was a Russian mystic teacher, philosopher, writer and composer. His main work was to present and transmit the teachings of the Fourth Way in the Western world.

The Doctrine of the Fourth Way, has different origins and feeds on various traditions (Buddhism, Sufism, Hinduism, Christianity).

The fourth way requires that the person works on the intellect, emotions and physical body. In the fourth way, sexual function is the most important. Gurdjieff, sexual energy is the most powerful that the body produces.

The fourth way establishes that human beings can achieve inner development of a spiritual nature, that possibility is innate in people but is not equally developed in all, that momentum is the basis of all religions. Also ensures that it is essential for achieving the help of someone who already has traveled that road and that its objectives are not easily obtained, but only after many years of work on himself.

The main popularizers of his ideas were Pyotr D. Ouspensky, of Russian origin and Maurice Nicoll of English origin.

KUNDARTIGUADOR

There are three types of Tantra: 1st White Tantra. 2º- Black Tantrism. 3º- Grey Tantrism.

The Hindustani speak frankly about the igneous serpent of our magical powers, the Electronic Solar Power amounting for Spinal Cord of ascetics, is the Kundalini. Clearly, the "Fohat Transcendent" is developed exclusively for the White Tantra. The key is we have given in our books: Connecting the "Lingam-Yoni" (phallus-uterus) without ejaculation of the sacred sperm.

Black Tantra is different: There is connection "Lingam-Yoni" magical rites and seminal ejaculation. The result in this case is the awakening of the "Igneous Serpent" in its strictly negative. Clearly the Sacred Fire, in the Black Tantrism is precipitated from the coccyx towards the atomic infernos of man. Then the "Tail of Satan" appears, ie the "abominable organ Kundartiguador". Grey Tantrism has another purpose: animal Goce without transcendent longings.

Two Snakes: The White Tantrism, rising victorious by the spinal column; The other is the "Tempting Serpent" of Eden on the Book of Genesis in the Bible, is the same horrible Python, which crawled in the mud of the earth and that Apollo irritated wounded with his darts, a passage Greek mythology. The first is "the Brazen Serpent" which cured the Israelites in the desert, the Ascendant Fire has the power to awaken the chakras of the spine; opens were, the Seven Churches of "Revelation" of San Juan and makes us terribly divine Gods. Second open seven chakras that are in the lower abdomen, "Seven Gates of Hell" as the Mohammedans say. It is unquestionable that the horrible Python Serpent is the opposite, negative and fatal, shadow, were, the radical antithesis of the "Serpent of Light" or Kundalini.

Satan's tail is a distinctive black Tantra practitioners, the abominable organ Kundartiguador.

PRALAYA

Manvantara: literally means manw antara 'inside of a Manu' (by extension "within the lifetime of a Manu"), within Hinduism.

When you are speaking of "The Days and Nights of Brahma"; reference to the name given to periods called Manwantara (or 'range-within determine the Manus') and Pralaya (dissolution) is made.

The Maha-Manvantaras are active periods of the universe or "Cosmic Days", the Maha-Pralayas are his days of complete rest "Cosmic Nights."

SAHAJA MAITHUNA

Maithuna is a Sanskrit term used in Hindu tantra to denote sexual union in a ritual context. Sahaja is a similar term used in Yoga. In both cases reference to the transmutation of sexual energy is done by specific techniques.

Although there are multiple interpretations of how to do the different translations of the word maithuna clearly shows that refers to male-female couples and their union in the physical-sexual sense, and is synonymous with "nishpatti kriya" (mature cleansing) .

As the spirit without matter is not effective by itself, both elements work together to achieve harmony only when the union has been consecrated when considering that reaches maithuna correctly. The couple is then divine: she is Shakti and he is Shiva.

Tantric literature usually makes numerous references to the need for control to achieve ejaculation or perform maithuna sacred sex.

The Maithuna based on sexual union of man and woman, without loss of sexual energy for spiritual purposes. Which include Kundalini awakening and removing impurities of the soul.

XOLOTL

Xolotl (Nahuatl, "animal") in the Aztec and Toltec mythology is the god of the spirits, which helped the dead on their journey to Mictlan, lord of the evening star (Venus) and the twins and underworld.

Xolotl was also the god of fire and twin of Quetzalcoatl. Its meaning is extended to dog and twin.

It was part of the creator gods of mankind and who gave him the fire of wisdom to men. Xolotl was commonly depicted as composed of skeletons and dog's head. In fact the dog is the most common representation. One of the missions of this dog was to accompany the dead on their journey into eternity, in the same way as the god Xolotl was accompanying the journey of the Sun through the underworld.

XOLOTL in meaning esoteric Gnostic represents instinct, namely the sexual kind. On a spiritual level is the representation of the same "Divine Daimon" which refers to Socrates, the famous Lucifer of the Notre Dame de Paris and is summarized in the figure and myth of Prometheus in Greek mythology.

Sexual Fire, the dog, the erotic instinct, ie the Nahuatl-Lucifer, is that extraordinary and marvelous agent that can transform radically.

Xolotl-Lucifer as a tutor, teacher, mentor, is certainly unusual, unusual, extraordinary.

It exists in the Luciferic temptation didactic inimitable, portentous pedagogy, astounding attraction, unmistakable incentive, hidden instigation with divinales purposes secrets, seduction, fascination. That impulse is the psychological trainer in the gymnasium of practical life. Wrote this: "The temptation is to fire triumph over temptation is light."

Nahua oral traditions relate that Quetzalcoatl should go down to hell, to those terrible places, so it is an unusual journey that Xolotl alone can guide. He rushes headlong into hell, as the evening star dies and after a while in the darkness raised in the splendid form of the morning star, ie Quetzalcoatl resurrected.

From the book: "Secret Doctrine of Anahuac" of Samael Aun Weor.
